INSPECTION STATIONS IN NEBRASKA

Inspection Stations provide information on choosing and properly installing a child safety seat, as well as how to properly secure a child into a seat. Inspection Stations were established using federal funds to assist low-income families. Call to make an appointment.

In addition to these sites, Check-up Events are held in various Nebraska communities. Check-Up Events are set up in public areas, such as shopping center parking lots, and conducted for a set period of time (usually 3-4 hours). To find out when the next Check-Up event will be held in your area, visit www.safekidsnebraska.org and click on "Upcoming Events/Full Calendar."
